1. A black mineral (now recognized as an oxide of a metal, to which its name has been transferred: see sense 2), used from ancient times in glass-making, and now in many industrial processes. Also called **black manganese,** †*glass-maker's manganese*. The name has been also applied with qualification to other ores of the metal: **grey m.,** = MANGANITE 1; **horn m.,** *corneous m.* [G. *hornmangan*, Jasche], an impure manganese silicate akin to photicite; **red m.,** = RODOCHROSITE; **white m.,** manganese carbonate.

As the name is in chemical use now restricted to the metal (sense 2), its older application survives only in commercial and industrial use. The black manganese of commerce is usually a mixture of various oxides, but the term is considered to apply esp. to manganese dioxide, MnO_2, which is the valuable ingredient in the mixture.

The Du. and G. word is ultimately from the Gr. *μάγγανον* (see MANGONEL), but its history has not been precisely traced: cf. the med.L. forms *mango, manga*. For the sense cf. It. *mangano*, 'a kinde of presse to press buckrom, fustian, or died linnen cloth, to make it have a luster or glasse' (Florio 1598).] A machine for rolling and pressing linen and cotton clothing etc. after washing; in its older form, an oblong rectangular wooden chest filled with stones, worked backwards and forwards by a rack and pinion arrangement (or, earlier, by straps wound round a roller worked by a handle), and resting upon two cylinders, which were thus rolled with great pressure over the fabric spread upon a polished table beneath; now consisting of two or more cylinders working one upon another. Cf. CALENDER *sb.*[1] 2.

The possession of a mangle, for the use of which a small sum was charged, is, among the poorer class of English cottagers, a common means of earning money. The question 'Has your mother sold her mangle?' (quot. 1836–7) was at one time the commonest piece of 'chaff' used by London street-boys.

Mangrel, Mangrie: see MONGREL, MANGERY.

Mangrove[1] (mæ·ŋgrōuv). Also 7 mangrowe, mangrave. [Of obscure history. Synonymous words app. connected are Pg. *mangue* (16th c.), Sp. *mangle* (Oviedo 1535, who applies it to S. American species), whence F. *manglé* (16th c.), later *mangle* (now applied to the fruit only, the name of the tree being *manglier*). The Malay *mangi-mangi* mangrove (not now current in the Malay Peninsula, but recorded in early Dicts.) is usually regarded as the ultimate source, but it is difficult to account on this view for the early appearance of Sp. *mangle* referring to America. The Eng. forms *mangrowe*, *-grave* are unexplained (but cf. the word-play in quot. 1613); the mod. form is doubtless due to assimilation to GROVE *sb.*]

1. Any tree or shrub of the genus *Rhizophora*, or the allied genus *Bruguiera* (N. O. *Rhizophoraceæ*); esp. the Common Mangrove, *R. Mangle*.

The genus *Rhizophora* is extensively represented in both hemispheres. The species are all tropical, growing in the mud on the sea-shore down to low-water-mark; they have large masses of interlacing roots above ground, which intercept mud and weeds, and thus cause the land to encroach on the sea. *Red mangrove* (see also 2 d): a name given to a West Indian variety of the Common Mangrove, formerly separated as *R. Candel*; also in Australia, to *Bruguiera rheedii*.

1613 W. C. *Plain Descr. Barmudas* F 2 b, Amongst all the rest there growes a kinde of tree called Mangrowes, they grow very strangely, & would make a man wonder to see the manner of their growing. 1657 R. LIGON *Barbadoes* 72 The mangrave is a tree of such note as she must not be forgotten. 1697 DAMPIER *Voy.* I. 151 Low swampy Land, overgrown with Red Mangroves. 1772–84 *Cook's Voy.* (1790) I. 193 A large lagoon, by the sides of which grows the true mangrove, such as is found in the West-Indies. 1845 DARWIN *Voy. Nat.* xxi. 498 The channel..was bordered on each side by mangroves, which sprang like a miniature forest out of the greasy mud-banks. 1889 MAIDEN *Usef. Native Plants* 316 *Bruguiera Rheedii*..Red Mangrove.

¶ Ligon's description of the 'mangrave' confuses it (as Sloane pointed out) with the Mahoe (see MAHOE[1] 1). Hence some later writers have applied the name mangrove-tree to the Mahoe.

2. Applied, on account of similarity of habit and appearance, to various other plants. **a.** Any tree or shrub of the genus *Avicennia* (N. O. *Verbenaceæ*), esp. the White Mangrove (*A. officinalis*) found in Brazil and Australasia, and the Black or Olive Mangrove (*A. nitida*) of tropical America and Africa. **b. Button mangrove**, a small W. African tree, *Conocarpus erectus* (N. O. *Combretaceæ*). Also called Zaragoza mangrove (*Treas. Bot.* 1866). **c. White mangrove**, *Laguncularia racemosa* (N. O. *Combretaceæ*), found in the West Indies. **d.** In Australasia (see Morris *Austral Eng.* 1898) used with various qualifications in the names of certain plants indigenous or cultivated there, as **milky mangrove**, *Excæcaria Agallocha* (N. O. *Euphorbiaceæ*); **native mangrove** (in Tasmania), a leguminous tree, *Acacia longifolia*; **red mangrove** (see also 1), *Heritiera littoralis* (N. O. *Sterculiaceæ*); **river mangrove**, an East Indian tree, *Ægiceras majus* (N. O. *Myrsineæ*), naturalized in Australia; **rope mangrove**, *Hibiscus arboreus*.

-mania, a terminal element, repr. Gr. *μανία* MANIA in composition.

There were in Gr. a few compounds in *-μανία* (rare and chiefly post-classical), expressing the general sense 'a certain kind of madness', or 'the state of being mad after some object', and corresponding as nouns of quality or condition to the related adjs. (a much more frequent formation) in *-μανής* = '-mad'. Examples are *γυναικομανία* mad passion for women, *ἐρωτομανία* love-madness, *ἱπτομανία* mad love for horses, *ὑδρομανία* 'water-madness', hydrophobia. In the 16th and 17th c. a number of quasi-Greek compounds, denoting species of mania, were invented and used in medical Latin, and some of these, as *nymphomania*, have been adopted in Eng. Other technical or quasi-technical words, formed in the 19th c., are *kleptomania*, *lypemania*, *megalomania*. In the 17–18th c. the currency of F. *manie* in the sense of a 'craze' or passion (e. g. for some pursuit, or the collection of some class of objects) suggested the formation of a number of quasi-Gr. compounds such as *bibliomanie* mania for books, *métromanie* mania for metre, *mélomanie*

mania for song; and hybrid formations such as *Anglomanie* mania for things English, *tulipomanie* mania for tulips. Several of these words have been adopted in Eng. with the ending *-mania*, and in the 19th c. it became somewhat common to invent nonce-words with this ending. Examples are **bancomania**, a craze for establishing banks; **Graiomania** [L. *Grai-us* Greek], passion for things Greek; **Italomania**, wild enthusiasm for Italy; **Queenomania**, (applied by Southey to the popular devotion to the cause of Queen Caroline); **scribbleomania**, a craze for scribbling. The sbs. in *-mania* have, actually or potentially, correlative sbs. in **-maniac**; the words in -MANE are of rare occurrence, and are viewed as Gallicisms.

Μανιχαῖος, from the name of the founder of the sect (variously recorded as *Manes* and *Manichæus*) who lived in Persia in the 3rd century after Christ.] An adherent of a religious system widely accepted from the third to the fifth century, composed of Gnostic Christian, Mazdean, and pagan elements.

The special feature of the system which the name chiefly suggests to modern readers is the dualistic theology, according to which Satan was represented as co-eternal with God.

(For a later interpretation of its symbolism see quot. *c* 1532.)

The words used on putting on the maniple, 'Merear, Domine, portare manipulum fletus et doloris', look like a reminiscence of Ps. cxxv[i]. 6 (Vulg.), and it seems possible that the term may have originated from this formula. (So, as one of several suggestions, in Durandus *Rationale* III. vi, *De Manipulo*; he explains 'manipulus' as = *præmium*.)

Manna[1] (mæ·nă). Also 1 monna, 2–3 manne, 4 mana. [a. late L. *manna* neut. indecl. (later also fem. *a* stem), a. Hellenistic Gr. *μάννα* neut. indecl. (LXX and N. T.), ad. (? through Aramaic *mannā*) Heb. מָן *mān* (whence Gr. *μάν*, L. *man*, occurring more frequently than the longer form in the LXX and Vulgate O. T.: see MAN *sb.*3).

G. Ebers (*Durch Gosen zum Sinai*), gives plausible reasons for believing that the Ancient Egyptian *mannu* denoted the exudation of *Tamarix gallica.* As the Arab. *mann* has the same sense, it seems possible that the Heb. word may represent the name anciently current in the Sinaitic wilderness for this natural product, which in many respects agrees with the description of the miraculous manna, and which is still locally regarded as a dew falling from the sky. The etymological tradition or conjecture preserved in Ex. xvi. 15 represents the word as having originated from the question *man hū?* 'what is it' (in Aramaic or supposed archaic Heb.), which grammatically admits of being interpreted 'It is *mān*'. (Cf. the Vulgate, l. c.: Dixerunt ad invicem: Manhu, quod interpretatur, 'quid est hoc?')

The word has been adopted in most versions of the Bible, and appears in figurative uses in the literature of most of the countries of Christendom. Cf. Goth., OHG. (MHG., mod.G.), Du., Sw., It. *manna,* F. *manne,* Sp. *maná,* Pg. *mamá.*

Whether the Gr. *μάννα,* L. *manna,* fem., meaning a grain of frankincense (sense 9 below), is connected with this word is uncertain, though an oriental origin for it is probable.]

3. A unit of English territorial organization, originally of the nature of a feudal lordship.

The doctrine of the lawyers of the 17th c. is that a manor consists essentially of land held in demesne by the lord, to which is attached a seignory over freehold tenants sufficient in number (the minimum is variously stated as two or three) to constitute the court, called at a relatively late time the court-baron, which the lord is bound to hold and the tenants to attend. (The manor was often defined from the point of view of its relation to the lord, as an estate in land consisting of demesnes and services.) This restriction of the meaning of the word is destitute of early authority (though the kind of complex estate described probably existed from the 12th century), but is the basis of the present application. As the status of tenant in fee under a mesne lord is practically obsolete, a manor now consists of the lord's demesne (if any exists) and of lands from the holders of which he has the right to exact certain fees and fines, and within which he has certain privileges. A 'court customary' is held in all manors where there are copyhold or customary tenants of the demesne. A manor is usually named from the principal township, as 'the manor of Barnstaple'.

d. In some of the American colonies, authority was given by royal charter for the creation of 'manors' after the English model, with courts-baron and seignorial rights. The Dutch governors of what is now the State of New York also granted 'manors', with certain hereditary privileges now abolished. (See quot. 1870 and Patroon 4.) The term still continues to be applied to certain districts in the U. S. which were 'manors' in colonial times.

2. *Law.* A species of criminal homicide of a lower degree of criminality than murder; now defined as criminal homicide without malice aforethought.

In etymological meaning there is no difference between *manslaughter* and *homicide* (L. *homicidium*, F. *homicide*, both used in early Eng. law-books). In its modern technical use, *manslaughter* corresponds generally to the 'simple homicide' of early Law French and Law Latin writers, which was used in contradistinction to 'murder' (though the distinction is not identical with the modern one), and ordinarily implied criminality.

According to the modern interpretation, *manslaughter* is committed when one person causes the death of another either intentionally in the heat of passion under certain kinds of provocation, or unintentionally by culpable negligence or as a consequence of some unlawful act.

In Scotland the term corresponding to *manslaughter* is 'culpable homicide'.

†a. A bird of paradise (*obs.*). b. Any bird of either of the genera *Manucodia* and *Phonygama*, inhabiting the Papuan region, and formerly classed with the Birds of Paradise.

The F. *manucode* was originally applied to all the birds of the old genus *Manucodiata* (the genus *Paradisea* of Linnæus), and in this use was occas. employed by English writers. The generic name *Manucodia* (? a misprint for *Manucodiata*) was used by Boddaert 1783 in describing a species since discovered to belong to a distinct genus, for which English ornithologists adopted Boddaert's name. In English *manucode* was then restricted to the birds of this genus, which has since been divided into two.

B. quasi-*sb.* and *sb.*

1. quasi-*sb.* On the analogy of *a few* (see Few **2**), *a* has from the 16th c. been prefixed to *many* when followed by a pl. sb. or used *absol.* in plural sense. In such collocations *many* formally admits of being interpreted as a sb., meaning ' a great number '. This interpretation is somewhat strained when *a many* is immediately followed by a pl. sb., because the ellipsis of *of*, which must be assumed, is abnormal; but in the other cases it presents no difficulty, and it would often be impossible to determine whether in the consciousness of the speaker the word is an adj. used absol. in pl., or a genuine sb. Confusion with Meinie, of which there are many traces in the 16th c., seems to have contributed to cause the word in this use to be apprehended as a sb. Often with prefixed adj. as in *a †considerable, good, great, †pretty, †jolly many*; also † *no small many*.

a. with pl. sb. (or *people*) immediately following. In this use *a many* hardly differs in sense from *many*, and is now somewhat rare in literary use, though *a good many, a great many*, are common colloquially.

Marchpane (mā·ɹtʃpēn), **marzipan** (mā·ɹzipæ·n). Forms: α. 5, 8 marchpayne, 6 marche payne, -pane, (martspaine, martchpane), march pain, (-payine, -pine), 7 marchpayn, (6, 9 marchpan), 6–7 marchpaine, 6– marchpane. β. 6–7 mazapane. γ. 6 marzepaine, 9 marzipan, (marzapane, marcipan). [Occurs as F. *massepain* (in 16th c. *marcepain*), It. *marzapane*, Sp. *mazapan*, Pg. *maçapão*, Ger. *marzipan* (*martzepan* 1521, glossing *panis marcius*), Du. *marsepein* (*marcepain* in 1486), Da., Sw. *marsipan*; the Eng. forms come from various continental sources. In recent times the sweetmeat has been known chiefly as imported from Germany; hence the Ger. form *marzipan* has at least equal currency with the traditional Eng. form.

The word is believed to have come into the other Rom. langs. from Italian. Its etymology is obscure. What seems to be the same word occurs in various Rom. forms and in med.L. with the senses 'small box', 'a certain mediæval weight', and 'a mediæval coin'. Kluyver, in *Zeitschr. f. deutsche Wortforschung* July 1904, ingeniously tries to prove that the last-mentioned sense is the source of all the others. He identifies the word with med.L. *matapanus*, a Venetian coin bearing a figure of Christ on a throne (Du Cange), and suggests that it represents Arab. *mauthabān* 'a king that sits still' (Lane), which he conjectures to have been used by Saracens as a derisive name for this coin.]

Marcion accepted as sacred books ten of St. Paul's epistles and a garbled form of the gospel of Luke, and regarded the creation of the material world and the revelation of the Old Testament as the work of a finite and imperfect God, whose authority is abrogated by the manifestation of the supreme God in Jesus Christ. He discouraged marriage, and inculcated the most rigorous asceticism.

Margaric (maɹgæ·ɹik), *a. Chem.* [mod. f. Gr. μάργαρ-ον = μαργαρίτης pearl + -IC, in reference to the pearly lustre of the crystals or scales.] In **Margaric acid**: †**a.** orig. the name (*acide margarique*) given by Chevreul to one of the three fatty acids (*oleic, margaric, stearic*), the glyceryl derivatives of which (olein, margarin, stearin) were thought by him to form the chief constituents of animal fats. The composition assigned to margaric acid was (reduced to the new notation) $C_{17}H_{31}O_2$. So *margarie ether. Obs.*

It was shown by Heintz in 1852 (*Journ. Prakt. Chem.* LXVI. 1) that the three fatty acids of animal fat are the oleic, palmitic, and stearic, and that the 'margaric' of Chevreul was really a mixture of palmitic ($C_{16}H_{32}O_2$) and stearic acid ($C_{18}H_{36}O_2$); and in this use the name is now obs., though it remained long in popular manuals, and its former prevalence is commemorated in the names MARGARINE and OLEO-MARGARINE.

Mark (mārk), *sb.*[1] Forms 1 meare, *Anglian* merc, (also ȝemierce, ȝemęrce, *Northumb.* meroe, merca), 2 marc, 3–5 merk(e, (Orm. merrke), merc(k, marek(e, 4, 7 marque, 4–mark. [OE. *mearc*, Anglian *merc*, str. fem., boundary, landmark, sign = OFris. *merik(e, merke*, boundary, sign, OS. *marka* boundary (MDu. *marke*, mod.Du. *mark*), OHG. *marcha* boundary (MHG., mod.G. *mark* fem.), ON. *mǫrk* (known only in the derived sense 'forest'; Sw., Da. *mark* field, ground), Goth. *marka* boundary, landmark:—OTeut. **markâ*. A neuter form (:—OTeut. type **marko*^{m}) exists in several Teut. langs. with the senses 'sign', 'landmark', 'standard', etc.: MDu. *mark* (mod.Du. *merk*), MHG. *mark* (mod.G. has *marke* fem., prob. influenced by F. *marque*), ON., MSw. *mark*. The ME. form *merke* (disyllable), while normally representing the OAnglian pronunciation *merc*, may in part descend from ONorthumb. *męrce* (also written *męrca*), token, sign, and in part also from an adoption of the equivalent ON. *merki* neut., landmark, standard, sign (Sw. *märke*, Da. *merke*):—OTeut. type **markjo*^{m}, f. **markâ* (see above); it may also, in northern dialects, represent partly the ONorthumb. *gemęrce* sign, token (= WS. *gemierce*, OHG. *gimerchi* boundary:—OTeut. **ga-markjo*^{m}), as the prefix *ge-* of sbs. did not survive into ME., and the palatalized *c* in final syllables became *k* in northern Eng. According to phonetic law the ME. *merke* regularly became *mark* in mod.Eng., thus coalescing with the descendant of WS. *mearc*.

The Teut. word and its derivative vb. were early adopted into Romanic; the sb. appears as OF. *merc, marc* masc., F. *marque* fem., mark, sign, etc., *marche* (ONF. *marque*) boundary (see MARCH *sb.*[3]), Pr., Sp., Pg., It. *marca* mark, sign, boundary. Some of the senses developed in F. *marque* have coloured the application of the Eng. word.

The OTeut. **markâ* appears to be cogn. w. L. *margo* MARGIN, OCeltic **mrogi-* country (Gaulish *brogi-* in place-names, Welsh *brô*, OIrish *mruig, bruig*), Persian *marz* boundary. The extra-Teut. relations confirm the view which is suggested by the evidence of Teut. itself, that the primitive sense is 'boundary'. The order of development of senses which appears most probable, and is assumed as the basis of the arrangement below, is 'boundary', 'sign of a boundary', 'sign in general', 'impression, trace or device used as a sign', 'impression, trace, etc. in general'. Some scholars, however, have considered the sense 'visible trace' as primitive (comparing Lith. *margas* parti-coloured), and have supposed the sense 'boundary' to be either derived from this or to belong to an independent word.]

2. *Hist.* The name applied in mediæval Germany to the tract of land held in common by a village community. Hence used by many modern scholars to denote the tract of land similarly held by one of the village communities of primitive Teutonic times. Also *attrib.*, as in *mark-community, -family, -system*; *markmoot* (pseudo-*arch.*), a (supposed) assembly of the inhabitants of the 'mark'.

Kemble's fancy that OE. *mearc* was the name of a unit of territorial organization next below the shire (*scīr* or *gā*) has no foundation. The alleged OE. **mearcmōt* 'mark-moot', has no existence: the *mercemot* occurring in a schedule of boundaries of land at Barrow-on-Humber in 971 (Birch *C. S.* No. 1270) may perh. mean 'parsley-bed', and in any case does not admit of Kemble's interpretation.

1848 KEMBLE *Saxons in Eng.* (1876) I. iii. 76 As then the word Mark is used to denote two distinct things,—a territorial division and a corporate body,—so does the word Gá or Scír denote both [etc.]. 1867 FREEMAN *Norm. Conq.* (1876) I. iii. 84 Such a community occupies its own territory, its mark. *Ibid.* 98 The unit is the Mark, roughly represented by the modern parish or manor. 1874 STUBBS *Const. Hist.* (1875) I. ii. 34 We have not the mark system. *Ibid.* v. 84 *note*, That the markmoot was a court of justice .. seems altogether improbable. *Ibid.* 85 It is as an owner of land, not as a member of the mark-community, that the freeman has rights. 1876 DIGBY *Real Prop.* i. § 1. 5 Each community occupied a territory or mark, which was divided into three, or rather four portions. 1887 *Edin. Rev.* Jan. 10 In all Teutonic countries the same conflict was waged between the manor and the mark.

3. Used to represent G. *Mark* as the proper name of certain principalities, esp. the Mark of Brandenburg. † Also repr. It. *Marca* in *the Mark of Ancona*. (Cf. MARCH *sb.*[3] 3.)

In mod. literary use (after some of the examples in Shaks.), an expression of impatient scorn appended to a quoted expression or to a statement of fact.

[It has been affirmed (see W. A. Henderson in *N. & Q.* 8th ser. VII. 373) that the phrase was used by midwives at the birth of a child bearing a 'mark'. This may possibly be its original use: cf. quot. *a* 1625 below. The meaning of 'mark' in the expression may, however, have been 'sign' or 'omen' (see 11). There is no foundation for the statement copied in recent Dicts. from Dr. Brewer, that the phrase was originally used by archers.]

The form of the OE. word (with *a* not 'broken' before *rc*) shows that it is not a native word; some scholars have supposed it to be from ON., but the gender perhaps points rather to popular Latin as the source. The proximate origin appears to be Romanic; whether the word is ultimately Teutonic (connected with Mark *sb.*1) is doubtful.]

OF. *marmouset* grotesque image, in 1280 latinized *marmosetum* (not *marmoretum* as given by Littré); in mod.F. the word means also 'little man'; the sense 'ape', though not found in Fr. dicts., is in provincial use (see Honnorat *Dict. Prov.*). Hence MDu. *marmoset* in all three senses.

The origin of the Fr. word is obscure; it has been conjectured to be a derivative of L. *marmor* marble, but the form is not easy to account for. It can hardly be unconnected with F. *marmot* little child (whence prob. It. *marmocchio*), in early use also 'monkey', 'grotesque statuette'; forms app. cognate are med.L. *marmŏnetus, mammŏnetus* (Promp. Parv.), *mammōn-em* monkey. Some have supposed the source to be OF. *merme* small (:—L. *minimus*); others have suggested that the word in the sense 'grotesque figure' was an architectural term derived in some way from Gr. *μορμώ* bugbear.]

In later times this became practically a licence to fit out an armed vessel and employ it in the capture of the merchant shipping belonging to the enemy's subjects, the holder of letters of marque being called a privateer or corsair, and entitled by international law to commit against the hostile nation acts which would otherwise have been condemned as piracy. Rom. *marca* (see MARCH *sb.*[3], MARK *sb.*[1]) frontier, frontier territory + *-ese*:—L. *-ēnsem* suffix forming adjs. from place-names (see -ESE). The word is thus etymologically an adj., the sb. understood being that represented in Eng. by COUNT, so that the title was equivalent to MARGRAVE. The med.L. representative was *marchiōnem* (*marchio*), still preserved in heraldic Latin: cf. *marchioness.*

The prevailing spelling in literary use appears to be *marquis.* Some newspapers, however, use *marquess*, and several English nobles bearing the title always write it in this way.]

1. In various European countries, the title of the ruler of certain territories (originally 'marches' or frontier districts). This gradually passed, in Romanic-speaking countries, into a mere title indicating a certain grade of noble rank, immediately below that of duke and above that of count. In English it is commonly used to designate a person of this title rank in the modern nobility of foreign countries (though the foreign forms, It. *marchese*, Sp. *marqués*, etc. are sometimes retained), and also *Hist.* as the appellation of those territorial lords to whom it was applied in earlier times. Formerly it was often employed (now rarely) as the English equivalent of MARGRAVE.

Horace Gerold (the Marquis of Clairefontaine).

2. At the end of the 14th c. the title was introduced into England to designate a specific degree of the peerage, between those of duke and earl. Late in the 15th c. this degree was adopted in the peerage of Scotland. The title still continues, indicating the same relative rank, in the peerage of the United Kingdom and in those of Scotland and Ireland. When a duke is also a marquis, his second title is given 'by courtesy' to his eldest son: thus the eldest son of the Duke of Devonshire is called 'the Marquis of Hartington'.

The title of a marquis is usually territorial in form, as 'the Marquis of Salisbury', but in some instances 'Marquis' is prefixed to a surname, as 'the Marquis Cornwallis'.

† **3.** In the 16–17th c. often employed as a female title, equivalent to the later MARCHIONESS. *Obs.*

It is not easy to see how far this was regarded as an application of the masculine title, and how far it was taken as an anglicization of MARQUISE. The spelling *marquess* was commonly preferred in this use, prob. through association with the suffix -ESS. *Lady* was often prefixed.

The tower was of a type common in the Mediterranean; the stout resistance which it was able to make with a small force led to a belief among English military experts that the construction had great defensive value, and the erection of 'martello' towers was therefore strongly urged on the British government, but it was not until 1804 that any were actually erected. Windham's account of the events of 1793–4 is grossly inaccurate, but there appears to be no room for doubt that he refers to these.]

3. Martial law. a. That kind of military government of a country or district, by which the ordinary law is suspended, and the military authorities are empowered to arrest all suspected persons at their discretion, and to punish offenders without formal trial. †**b.** Formerly sometimes applied to what is now called 'military law', viz. the body of enactments and rules for the government of the army; an enactment or rule forming part of this.

Originally these two senses (in which the adj. has respectively senses 1 and 2) would not always be distinguishable, as military law existed only in war-time, and consisted mainly of temporary and occasional ordinances; our earliest quots., however, distinctly exhibit the same use as is now current. In early examples the adj. is often assimilated in spelling to MARSHAL *sb.*, and it was a common opinion that 'marshal law' was so called as being the law emanating from the lord marshal. Mod. Fr. has *loi martiale*, but perh. from English.

The name is applied in Fr. to various birds, as in *martin-chasseur*, the hen-harrier, *martin-pêcheur*, the kingfisher; the dim. *martinet* (see MARTINET) denotes the house-martin and the swift.

The application of the Christian name to birds has no obvious reason, and may have been purely arbitrary. Many writers of the 17th c. say that the martin is so called because it comes in March and departs about Martinmas.]

2. *Her.* An imaginary bird without feet, borne as a charge. Used as a mark of cadency for a fourth son.

In French heraldry the corresponding bird (described as having neither feet nor beak) is called *merlette* (OF. *merlete, meslete*; AF. heraldry had *merelot, merlot*, with differing dim. suffix). This word is app. a dim. of *merle* blackbird; according to Littré it has the sense 'female blackbird', but only the heraldic sense appears in Hatz.-Darm. It seems possible that the heraldic bird may originally have been intended for a 'little blackbird', represented without feet by accident or caprice, or with symbolical intention, and that the English heralds of the 16th c. or earlier identified the bird so depicted with the 'martlet' or swift, which has short legs, whence its mod. specific name *apus* = Gr. ἄπους footless. It is noteworthy that the 'martlets' (so called in the 16th c.) in the pretended arms of Edward the Confessor were at an early period portrayed with feet. The anglicized form of *merlete*, MARLET, does not occur in heraldic use, but appears in several 16th c. instances with the sense of *martlet*, i.e. a swift or a martin. According to English heraldic writers, the use of the footless bird as a mark of cadency for younger sons was meant to symbolize their position as having no footing in the ancestral lands.

1. *Eccl.* The specific designation of honour (connoting the highest degree of saintship) for: One who voluntarily undergoes the penalty of death for refusing to renounce the Christian faith or any article of it, for perseverance in any Christian virtue, or for obedience to any law or command of the Church.

A sect which regarded its distinctive principles as part of the Christian faith could apply the title, in this strict sense, to its own members who died under persecution, while by others the application would be repudiated, or only conceded ironically. Popularly, however, this sense has long tended to be apprehended as a specific use of sense 2.

Mask (mask), *sb.*[3] Forms: (6 measque), 6–7 **maske,** 6–9 **masque,** 7– **mask.** [a. F. *masque* masc. (in 16th c. also fem.) of dispnted origin, whence also G., Du. *maske* fem., Da. *maske* com., Sw. *mask* fem. MASQUE *sb.* was orig. a sense of the same word, now differentiated in spelling.

The Fr. word (first recorded in 16th c.) is usually believed to be ad. the synonymous Sp. *máscara*, It. *maschera* (see MASKER *sb.*[1], MASQUERADE). But it is difficult to believe that the word has no connexion with med.L. *mascus, masca*, which render OE. *grīma* mask, spectre, in the Corpus Glossary *c* 725. *Mascha* is used *c* 680 by Aldhelm in association with *larva*, which had the senses 'mask' and 'spectre', and *masca* occurs in the Lombard Laws *c* 800 with the sense 'witch'; cf. Pr. *masco* witch (see MASCOT). On the whole the most plausible view seems to be that the representative of med.L. *mascus, masca* survived in some Fr. dialect, and was thence taken into literary use as an equivalent of the like-sounding Sp. *máscara*. The origin of med.L. *mascus, masca*, is undetermined; some scholars think the original sense was 'mask', and that the word was from Teut. **maskwo-* net (see MESH *sb.*).

MHG. *mess(e* neut., brass (early mod.G. *mess*, *möss*, *mesch*, *mösch*; still *dial.*), whence (with suffix = -ING[3]) the synon. MHG., MDu. *messinc*, *missinc* masc., neut. (G., Du. *messing* neut.); adoptions from this or an equivalent LG. form were ON. *messing*, *mersing* fem. (OSw. *mäsinger*, Sw. *messing* masc., Da. *messing* com.); LG. has a parallel formation *mesken* (see -KIN).

Most scholars have regarded the OHG. *mess(e* neut., brass, as identical with MHG. *mässe*, *messe* fem., lump (of metal), usually believed to be a derivative of L. *massa* MASS *sb.*[2] The supposition involves serious difficulties, and has latterly been questioned (Kluge, Franck), but no plausible alternative has been found. It does not seem possible to connect the words with L. (*æs*) *miscellum* mixed brass, or with the popular Lat. word represented in MASLIN[2]. The MHG. *messinc* passed into Slavonic (Czech, Upper Serb. *mosaz*, Lower Serb. *mjesnik*, Little Russian *mošaž*, White Russian *mosenz*:—**mosengjŭ*) and Lith. (*masadis*). The view of Schrader that the Slav. word is the source of the MHG. is improbable, and leaves the OE. forms and the MHG. *messe* unexplained. On the other hand, Schrader's comparison of certain oriental words for brass (Kirghiz *moes*, Kurdish *nys*, Persian *mis*, Mazendoran *mers*, *mis*) seems worthy of consideration.]

The ulterior etymology is obscure. The evidence of Isidore tends to show that the form with *c* is original, and some scholars have suggested that the word is from the root of L. *māceria*, wall. On the other hand, the stem *mattiōn-* agrees with the OHG. *mezzo* (also in comb. *steinmezzo*, mod.G. *steinmetz*, stonemason):—prehistoric **mattjon-*. This is commonly regarded as the source of the Rom. word, but it has no affinities in Teut. (unless it be cogn. w. OE. *mattuc* MATTOCK), and may be adopted from late Latin.]

‖ **Masora(h, Massora(h** (măsō·ră). Also **Mas(s)oreth** (măsō·reþ). [More correctly *Masoreth*, repr. Heb. מָסֹרֶת *māsōreth*, a word occurring in Ezek. xx. 37, where (by those scholars who do not regard the text as corrupt) it is interpreted 'bond (of the covenant)', and referred to the root אסר to bind. In post-biblical Heb. the word became common in the sense of 'tradition', being apprehended as from the root מסר to deliver, hand down; on this view of its etymology the normal punctuation would be מַסֹּרֶת *massōreth*, which many modern scholars have adopted, though without ancient authority. The mod.Heb. מָסוֹרָה *māsōrāh* (whence mod. Latin *Masora*, F. *Massora, Massore*, G. *Masora*, Eng. *Masora, Masorah*), is said to date only from the 16th c., and (with this vocalization) is an abnormal formation from the root מסר.] The body of traditional information relating to the text of the Hebrew Bible, compiled by Jewish scholars in the tenth and preceding centuries; the collection of critical notes in which this information is preserved. ¶ Milton seems (misled by the rendering 'tradition') to have supposed the word to be applicable to the exegetical traditions of the Rabbis, by which the severity of the Law was increased.

L. *missa*. The Teut. forms, partly from vulgar Lat. and partly from written Latin, are: OFris., OS. *missa* (MDu. *misse, messe*, mod.Du. *mis*), MHG. *misse, messe* (mod.G. *messe*), ON. *messa* (Sw. *messa*, Da. *messe*).

It is now generally agreed that the L. *missa* is a verbal sb. (formed like *repulsa, collecta, offensa*) from L. *mittĕre* (pa. pple. *missus*) to send, send away, dismiss. The earliest known examples of the word belong to the last quarter of the 4th century, occurring in the Epistles of St. Ambrose and the Itinerary of Silvia of Aquitania. In the early centuries it had the general sense of 'religious service', being applicable, e.g., to matins and vespers, though in an eminent sense it always denoted the Eucharist. In secular application it occurs, though rarely, in the 5th and 6th centuries with the sense 'dismissal'. The origin of the liturgical application has been much disputed. Isidore (*a* 636) conjectured that the original reference was to the dismissal of the catechumens which was the preliminary to the eucharistic service. This explanation is not favoured by modern scholars, who consider that the wider sense 'religious service' is more likely than the narrower sense to have been the original. Some think that *missa* at first denoted the solemn dimissory formula at the conclusion of a service, *Ite, missa est*, and hence came to be applied to the service itself. Others (as Kattenbusch in Herzog's *Encycl.*) have suggested, on confessedly slender and doubtful evidence, that *missa* in secular use had some such sense as 'commission', 'official duty', and was therefore adopted as the rendering of Gr. λειτουργία (see Liturgy), which had primarily a similar meaning, but in ecclesiastical language was used for 'religious service' and specifically for the Eucharist. Several other theories have been proposed, but none of them has gained wide acceptance among scholars.]

1. The Eucharistic service; in post-Reformation use, chiefly that of the Roman Catholic Church.

In the 16th c. the Protestants generally objected to the term as being unscriptural, and as associated with the

'popish' view of the nature of the sacrament. (In Sweden and Denmark, however, the equivalent words are applied to the Lutheran communion service.) In the first Prayer-book of Edward VI (1548–9) the heading of the service reads 'The Holy Communion, commonly called the Masse', but in the subsequent Prayer-books the word was not used. In recent years some of the Anglican clergy have applied the term to their own rite.

¶ c. Shakspere's mention of *evening mass* is prob. due to ignorance or forgetfulness of the fact that mass was not (normally) celebrated in the evening. In ecclesiastical antiquities, however, the expression is a literal rendering of L. *missa vespertina*, where the sb. has the wider sense mentioned in the etymological note above.

21. A title prefixed to the name or designation of a man. Originally used only in speaking of or to a man either of high social rank or of learning (sometimes, esp. in Scotland, applied *spec.* to a Master of Arts), but gradually extended in application. In ordinary use now only *dial.*, but in literatnre sometimes *arch.* or *Hist.*; otherwise superseded by MR. (pronounced mi'stəɹ).

The obscured pronunciation resulting from proclitic use doubtless began while the written form *master* was still commonly employed. Before the end of the 17th c. the abbreviation *Mr.* (originally only one among many others used for the word in all applications) had come to be restricted to the use in which the pronunciation was obscured, and to be the only permitted mode of writing the word in that use. Thenceforward *master* and *Mr.* were practically two words, distinct both in function and in form. In this Dictionary the abbreviation MR., in all its historical varieties of use, will be treated in its alphabetical place.

a. Prefixed to a surname or a Christian name.

Down to the 16th c. or a little later, *master* could be prefixed to the name of a knight or a bishop; at an earlier period it was freely used with the names of personages of ancient history and ancient writers. Some modern dialects have only one form for *Master* and *Mr.* as prefixed titles; others have both prefixes with a difference of function, *Mr.* being the superior title. (See E. D. D.)
